Welcome

At the Hespeler School of Art, we encourage creativity in a relaxed, enjoyable atmosphere. We offer a variety of programs - starting from age 6 and up. Regardless of your ability or amount of training, we're confident that we can help you develop your skills to the next level ... and beyond!

PLEASE NOTE:

We are a smoke-free environment. There will be no smoking allowed on the premises.

Our Programs

Our programs are designed to provide a nurturing, fun atmosphere that encourages creativity and artistic development.

- Small class sizes (max. 8 students per class, 6 students for Exploring Art)
- One-on one guidance
- Program flexibility to best service class and student needs and experience

About Us

At the Hespeler School of Art, it is our goal to share the love of art with our students. The focus of our courses is to explore and develop creativity and artistic skills through the entire art process.

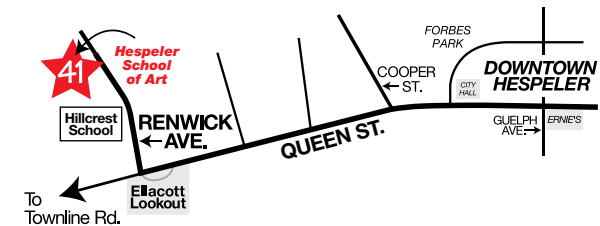

Fine art classes are instructed by Lise Kitzman, a fine artist and commercial artist of almost 30 years.

We look forward to you joining us!

For your convenience, we accept

Children's Programs

Drawing Programs

Our Drawing Programs provide a strong foundation for understanding the technical aspects of representing our 3 dimensional world on a 2 dimensional surface.

EXPLORING ART For children 6 to 8 years old.

The focus will be on the use of the basic 2 dimensional shapes to draw other objects. We explore colour through shading and painting to further enhance the art experience. This program lets your child be creative while developing important motor skills and creative use of colour.

BASIC DRAWING An exploration of how to draw the basic dimensional shapes and apply these techniques when sketching. Our focus on foundation drawing and artistic licence help you learn to draw better.

ADVANCED DRAWING Explore how to show dimension through values and shading. The importance of values, the elements of art and contrast is a key part of this course.

PEN & INK DRAWING Take your shading skills to the next level. Learn pen and ink shading techniques and explore negative drawing using Scratchboard.

Painting Programs

The Painting Program focuses on the creative role in art, using acrylic paint on preprinted canvas as the medium of choice. Students learn brush techniques, while exploring their natural artistic style.

Each program will see the completion of 2 to 4 projects, depending on the complexity of the subjects. The nature of this class allows the student who loves to paint the opportunity to repeat this class multiple times, since different projects are introduced regularly.

Allow your child with a love of art to express themselves creatively through drawing and painting.

Materials and applicable taxes are included.

All children's classes run for 6 weeks unless otherwise stated.

We often have other programs that might be of interest to your child. Check our website hespelerschoolofart.ca

Contact us for times and start dates.

Adult Programs

Drawing Programs

Our Adult Drawing Program provides a strong basis for understanding drawing and shading realistically.

APPLIED DRAWING We're changing the format of our adult Drawing Program, to provide an in-depth, practical approach to drawing!

The classes will explore the fundamentals of drawing as they apply to each project. We will look at the principles and elements of art, composition, dimension, artistic license and

all of the components that help create a great, realistic tonal drawing.

This gives the student the ability to focus on the techniques and interests they wish to pursue in their drawing skills. The student can provide us with their own subject matter, if there is a special project they wish to pursue .

Painting Programs

This program, geared for an adult level, focuses on the creative role in art and achieving depth in painting. The medium is acrylic paint on canvas.

Attention is given to application and brush techniques, while allowing the exploration of the individual's natural style and artistic perception of their subject.

The student has the choice of subjects they wish to paint, or they can provide us with their own subject matter, which we will prepare on canvas for them.

This program allows the student who loves to paint the opportunity to grow in their ability, since different projects are introduced to challenge their skill level.

For novice and experienced artists alike, these adult programs allow the student to progress at the level of their abilities. The nature of our programs gives the student the ability to focus on the techniques and interests they wish to pursue. Please feel free to share your ideas with us!

Materials and applicable taxes included.

All adult classes are held week nights and run for 6 weeks unless otherwise stated.

Contact us for times and start dates.

Ages 15+ Weeknights, 2 hour classes \$199.00
